---

1   Uninstall the hang straight by removing the hex nut and washers using a wrench (not included).

2   Install chain loop to the canopy and secure by reinstalling the washers and hex nut to one of the chain loops using a wrench (not included).

3   Feed the cord through the chain loop and screw the chain loop to the stem.

4   Weave the cord through the chain link, then feed the cord through the upper loop and canopy. Refer to included instructions to complete installation.
