

PRODUCT NAME: ADDRESS LIGHT  
ITEM NUMBER: 53650 53651

**Please consult a qualified electrician for hanging fixture and wiring!**

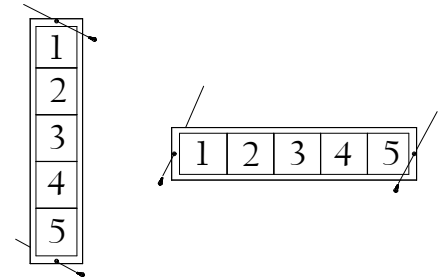

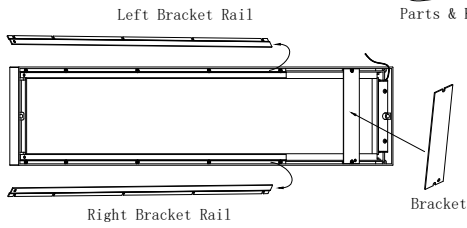

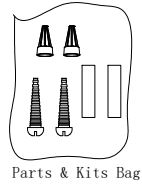

2\*2.75W LED

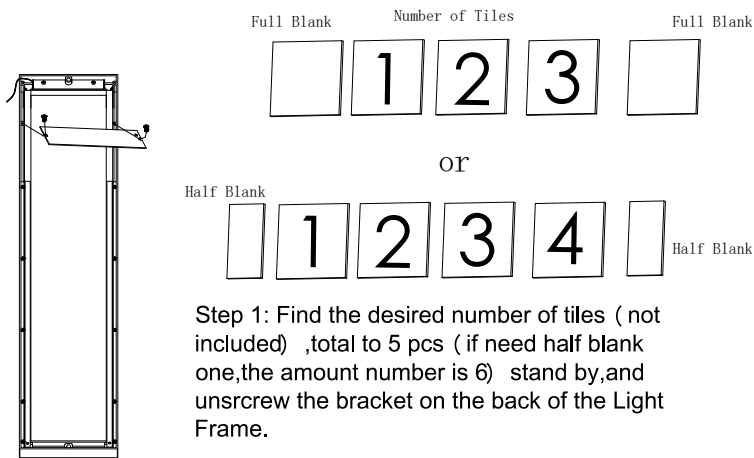

MADE IN CHINA

Page 1 of (2)

Before installing the light, please unpack the package box and make sure all parts available as picture below and right parts showed.

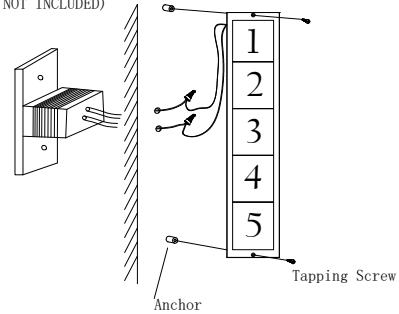

Step 3: the number can be installed both directions vertically and horizontally as above style. If any misspelling, proceed to step 2 until the number is as desired arrangement.

Step 1: Find the desired number of tiles (not included), total to 5 pcs (if need half blank one, the amount number is 6) stand by, and unscrew the bracket on the back of the Light Frame.

12-24V TRANSFORMER NOT INCLUDED

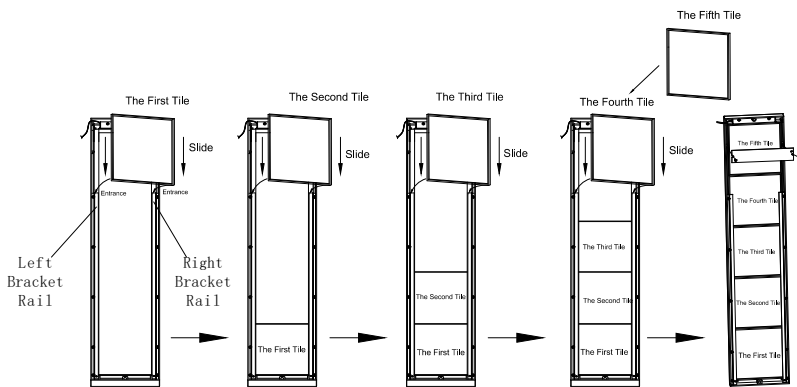

Step 4: turn the light back to front, and wire the White wire to neutral of power supply, Black wire to Live of power supply.

Warning: Before wiring, make sure the transformer is correct for input voltage, otherwise, it burns the light!

Step 5: Mark where anchors should be attached to building surface. Attach the Light frame assembly to surface with two tapping screws provided through holes in front of light frame.

Step 6: Check the transformer again, make sure all electrical wiring under requirements of correct 12~24V voltage, and turn on the switch.

Step 2: As above left, slide the first number into, from the entrance of left bracket rail and right bracket rail between, and then gradually slide down the rest of all number tiles one by one. Finally, screw on the bracket to fix the fourth and fifth number tiles as above right instruction.
