# INSTALLATION INSTRUCTIONS

Model # 8692/8693

READ AND SAVE THESE INSTRUCTIONS

WARNING! SHUT POWER OFF AT FUSE OR CIRCUIT BREAKER.

AVERTISSEMENT! COUPER LE COURANT AU NIVEAU DES FUSIBLES OU DU DISJONCTEUR.

#### PREPARING FOR INSTALLATION (Fig. 1)

Fig. 1

- 1. Shut off power at the circuit breaker and remove the old fixture including the mounting hardware.
- 2. Carefully unpack your new fixture and lay out all the parts in a clear area. Take care not to misplace any small parts necessary for installation.
- 3. Use the backplate (C) as a template to mark the location of the anchors. Pre-drill the holes for the anchors (E) and insert the anchors.
- 4. Thread the four studs (B) into the pre-drilled holes in the long strap (C) spaced the same distance apart as the holes in the back plate (F).
- 5. Attach long strap (C) using outlet box screws (D) to the outlet box (A), screw the wood screws (G) into the anchor (E) (Fig 1).

### **CONNECTION THE WIRES (Fig. 2)**

 Connect the electrical wires as shown in Fig.2. Making sure that all wire connectors are secured. If your outlet box has a ground wire (green or bare copper), connect the fixture's ground wire to it. Otherwise, connect the fixture's ground wire directly to the circular strap using the green screw (H) provided.

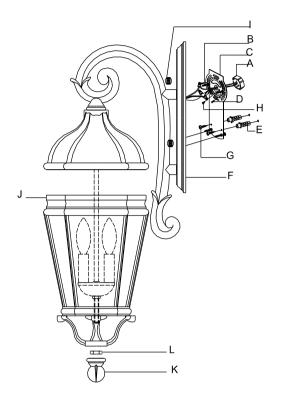

### FINISHING THE INSTALLATION (Fig.1)

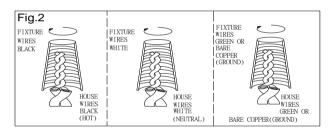

- To prevent moisture from entering the outlet box (A) and causing a short, use clear silicone sealant to outline the outside of fixture back plate (F) where it meets the wall leaving a space at bottom to allow moisture a means to escape.
- 8. Align back plate (F) onto studs (B) and secure with cap nuts (I). (Fig 1)
- At this point, unscrew the finial (K) and hex nut (L), carefully remove cage (J) to install the light bulbs in accordance with the fixture specification--DO NOT EXCEED THE MAXIMUM WATTAGE RATING! (NE PAS DEPASSER LA PUISSANCE NOMINALE MAXIMALE!)
- 10. Replace the cage (J), and secure with hex nut (L) and the finial (K).

Your installation is now complete. Return power to the outlet box and test the fixture.

## <u>"CAUTION-RISK OF FIRE CONSULT A</u> QUALIFIED ELECTRICIAN TO ENSURE CORRECT BRANCH CIRCUIT CONDUCTOR"

ATTENTION – RISQUE D'INCENDIE, CONSULTER UN ÉLECTRICIEN QUALIFIÉ POUR VOUS ASSURER QUE LES CONDUCTEURS DE LA DÉRIVATION SONT ADÉQUATS.
